

EXPRESS MANUFACTURING SERVICE 24 HOURS

Your order ready in record time!

What is the Express Service?

The Express Service is billed separately from the price of the parts.

The Laser Cutting Express Service is designed for parts that do not exceed standard technical complexity. Complex or large-volume projects may require a longer lead time. It must be requested, and it is the customer's responsibility to ensure the service has been accepted.

Acceptance of the EXPRESS SERVICE is subject to several factors:

1. Availability of the required materials. If unavailable, an alternative will be offered or the delivery time will be adjusted.
2. In exceptional circumstances of high demand, the express service will be subject to operational capacity.

To ensure proper handling, please send your emails to laser@lasernorte.com and copy programacion@lasernorte.com

It is the customer's responsibility to provide clear and complete designs or technical specifications. **It is highly recommended to send DXF or DWG files at a 1:1 scale.**

Delays due to modifications or errors in the files will not be attributable to LASER NORTE..

The manufacturing lead time starts once all questions have been clarified to allow production.

Express Service Hours: from **06:00 to 22:00**. You can contact LASER NORTE at **+ 34 946 312 199** / / Ext. 1 Planning/ / Ext. 4 Technical Office.

If you cannot reach these numbers, you may call +34 637 487 140

Options and Rates

The 24-HOUR Express Service may include other processes in addition to laser cutting:

PROCESSES	RATE
EXPRESS 24H LASER CUTTING	€30 / material and thickness
EXPRESS BENDING	€20 / order
EXPRESS THREADING, COUNTERSINKING, ETC	€20 / order
EXPRESS WELDING	€20 / order

A reference including all processes will be billed at a maximum of **€90** for EXPRESS SERVICES.

References with more than one EXPRESS process will be manufactured within **24 hours**: if the order is received at 10:00, it will be ready at 10:00 the next day.
